

Question:

Hi I live on strata and was wondering if you have heard anything about taking ownership of the community centre.

Kind regards

Answer:

Thanks for your email, Strata have worked hard these past 3 months in rectifying some of the issues that was stopping us from progressing with the official handover. We are hoping that by the end of the year/into the new year we will be able to take over the building with the land to follow in a later phase - so hopefully not long now.

Once the building is officially ours, we will share progress on our website and Facebook page, so if you don't already follow us, this may be the easiest way to receive updates on the new centre.
