

**Question:**

Travellers rolled onto Carr Bridge playing field late evening 30.08.24, much rubbish strewn around already morning of 31.08.24, what measures are being taken to have these people removed and the area tidied back up so it can be used again by local residents?

**Answer:**

We would like to reassure our community that the relevant action was taken last night within 15mins of arrival, in contacting and logging with Wakefield Council and the Police. The correct and proper process is in progress, which is being supported by our Ackworth Parish Councillors and Wakefield District Councillors who are all working collectively to resolve.

We have released a FB statement to hopefully reassure and address speculation that the gate had been left open, this was not the case. Upon inspection, the post to the gate has been removed with both chain and padlock still intact, which we will of course put in place measures to secure once the matter is resolved.

We are in communication and working with clubs and users of the Pavilion and pitches through this time and the staff team will continue to monitor and clean the site through this period the best we can.
